

Review your pilot logbook to jog your memory. Then use this checklist to see if any of these (sometimes frightening) phenomena have ever happened to you. Check off any that you want to learn more about during your BFR or checkout. Add miscellaneous topics as needed. Next, use this list to guide your preparation for the checkout. Finally, bring this list with you to your BFR and ask your instructor to help you with any areas that you feel need attention or explanation.

#### PRE-FLIGHT

- Object in cockpit came loose
- Control system irregularity
- Seat back unlocked
- Lap belt/shoulder harness unlocked
- \_\_\_\_\_

#### TAKEOFF & AEROTOW

- Lost control on takeoff
